Support Structures, (former) Gallery Kokon, Tilburg

*exhibition:* 23 February - 10 March 2019

A two week exhibition at former gallery Kokon in Tilburg (NL).

The exhibition title stems from a publication by Céline Condoirelli with the same title in which she researches visually and textually both the formal aspects and the content of the idea of 'support structures'.

The installation had two version. The second version was installed in the presence of the audience, one week after the opening. Both versions were based on the props and costumes we developed for the Lars Doberman/Orkater play 'De Vrouw' that toured the Netherlands in the months before. Costumes and installation made in collaboration with fashion designer Sanne Jansen.

During the opening we asked Staplerfahrer to do a performance within our installation.
