self-organised residency, Pingjum

From 10 till 15 June 2023 we organised a residency in the house of the parents of one of the members of the collective in Friesland. We worked on some carrier bags, drawings, collages, made video footage, watched birds. We did physical excersises, made strawls and saw a lot of starlings and lichens. On the last day we organised a little presentation for some local people from Pingjum and other persons interested. The presentation contained a improvised dance and a screening of a film we made during the residency accompanied by a musical improvisation.
